Rita:

This is our June newsletter, which has been sent to our entire email list (approx. 125 members thus far.) It has also been posted on our website. Feedback on the format and content has been very positive so far; succinct and visual is well-received by our stakeholders. We will be producing this document monthly for our stakeholders. We needed some extra time this month to develop and refine it, so it just went out last week. By September, we expect to produce it in time for distribution at our monthly Board meetings (which generally fall between the 8th and the 14th), in addition to mailing list distribution.

I have 95% completed our Q2 2018 report; I want to do a final proof and expect to send it to you before the end of this week.

Warmest regards,
Tara

Our **15** person VB BID Safe Team helps people throughout the district. In addition to the stats above, here are a few more services performed in June:

16 People safely escorted to their destination

6 Noise complaints responded to

1 Kitten rescued from a storm drain

We have **15** VB BID Clean Team workers.

They are all clients of Chrysalis transitioning toward personal employment goals while increasing their on-the-job skills and earning a paycheck

The **VB BID** is dedicated to making sure that LA City and County continue providing services at or above the levels provided before we began working in Venice. In support of that commitment, we do things like this:

31 Damaged street signs reported for replacement

[Download a PDF file of the VB BID Services June 2018](#)

"I've been delivering mail in Venice for more than 20 years, and I've never seen the streets as clean as they are since the BID services started. I'm almost sorry to be retiring because it's so much nicer to do my route now."
